[Jesuit Social Services](#) (AUS)
Ateneo de Davao (PHIL)

- **Three main areas for potential advocacy collaborations orgs:**
 - Stopping criminalisation of Human Rights & Environmental Defenders
 - Promote strong Corporate Regulations & Government Accountability in mining related projects
 - Connecting narratives around mining, from the local perspective (e.g., mining impacts, quality of life, right to work, alternatives to mining) to the global view (e.g., throw-away culture, consumer responsibility, energy transitions)
